Discover how EGENCO Malawi is ensuring consistent power in Liwonde by pairing a solar plant with diesel generators, improving electricity reliability for communities.

The project is planned to be implemented in three phases, starting with 10 Megawatts (MW) for the first phase and then 10MW and 30MW for the second and third phases respectively.

Malawi's electricity utility has broken ground on a solar power and battery storage project aimed at increasing the country's power generation capacity. This is the first phase of the scalable ...

The state of the art power plant is the first utility-scale grid-connected hybrid solar and battery energy storage project in Malawi and the largest in Sub-Saharan Africa. It comprises 52,000 bi-facial solar ...

Due to the frequent power cuts in Malawi, the site has turned to solar energy to reduce its dependence on the grid. The Hybrid Power System is equipped with 3 x 110 kW PV inverters, 680 kWh HV BESS, ...

The plant was developed by JCM and is owned by JCM Power and InfraCo Africa. The project includes a 28.5MWp solar array coupled with a 5MW/10MWh lithium-ion battery energy storage system (BESS).

The 20 megawatt (MW) Golomoti Solar Project in Malawi is the first of its scale in Southern Africa to include a battery energy storage system, which will enable the plant to provide ...

The Likoma and Chizumulu Solar Power Plants are the first solar power plants commissioned by the Electricity Generation Company (Malawi) Limited (EGENCO). Comprising of 1.3MW, they supply ...
