Modular design with up to 2MW in 200kWh increments. Discover the SRC-2000, an advanced battery storage solution with up to 2000 kWh. Ideal for energy optimization and critical infrastructure support.

The Reservoir Storage unit is a modular high density solution that is factory built and tested to reduce project risk, shorten timelines and cut installation costs.

Adding Containerized Battery Energy Storage System (BESS) to solar, wind, EV charger, and other renewable energy applications can reduce energy costs, minimize carbon footprint, and increase ...

Get your Exclusive Offer! Polinovel 2MWH commercial energy storage system (ESS) is tailored for high-capacity power storage, ideal for large-scale renewable energy generation, PV self-consumption, off ...

With 95% efficiency, modular design, and seamless integration with renewable energy sources, this system enhances grid stability and reduces energy costs. Ideal for large-scale energy storage needs.

Learn what to look for in a 2MWh battery energy storage system, from key specs and types to pricing, safety, and top buying tips.

Find out in this case study how Aggreko provided significant savings and reduced emissions with hybrid power for a refinery turnaround.
