For the Mongolian project, we selected two 25kW cooling and 12kW heating air conditioners. Which can cool down to 25 degrees in 4 hours under extremely high-temperature ...

Learn about the Mongolian People--their origins, history, culture, and modern lifestyle. Discover how nomadic traditions shaped Mongolia and who Mongolians are today.

Lithium-ion batteries (LIBs), while dominant in energy storage due to high energy density and cycling stability, suffer from severe capacity decay, rate capability degradation, and lithium ...

Billed as the largest single-capacity energy storage station under construction in China, the project is expected to be connected to the grid by the end of this year.

Since the proclamation of the 1992 Mongolian Constitution, the official name of the independent Mongolian state, previously (1924-92) the Mongolian People's Republic, has been simply Mongolia ...

Mongolia is a large and sparsely populated country landlocked between China and Russia. Mongolia is the 6th largest country in Asia and 18th largest in the world. The capital, Ulaanbaatar, is ...

With its rich mineral resources, Mongolia is poised to become a major player in the global lithium market, a vital component in electric vehicle batteries and renewable energy storage.

A sweeping investigation reveals how Mongolian words, songs, and memories are being erased, from the digital world to the classroom door.
