The modular PCS design allows for easy maintenance and expansion. The outdoor cabinet features front maintenance to minimize the occupied area and maintenance access. It offers safe and reliable ...

50kW and 125kW energy storage power modules, support on or off grid mode, air-cooled battery or liquid-cooled battery optional, has transformer, has STS module to achieve 10ms seamless switching.

Looking for an ODM BESS energy storage system? Our all-in-one outdoor cabinet (50-100kWh) features an IP55 design, LFP cells, and easy expansion for C& I applications.

This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh battery storage requirement.

Unleash peak performance and unparalleled security with our Air-cooled Energy Storage System. This modular powerhouse seamlessly integrates AI-powered intelligence for optimized operation and ...

power module, battery, refrigeration, fire protection, dynamic environment monitoring and energy management in one. It is suitable for microgrid scenarios such as small-scale commercial and industrial ...

With the patented technology of virtual synchronous machine features, it can realize the function of multiple remote free parallels without communication lines and off-grid switching;

The MEG 100kW x 215kWh Cabinet is engineered as a modular energy storage building block, ideal for commercial facilities, microgrids, and community-scale projects.
