Enter the Nepal Energy Storage Base initiative - a \$1.2 billion national program approved last month to deploy 30 storage facilities by 2027 [1]. The strategy combines three complementary technologies: 1. ...

Representing Nepal at the launch were Nepali Ambassador Bharat Kumar Regmi, Gham Power CEO Anjal Niraula, and teams from Swanbarton and Practical Action. This groundbreaking ...

Gham Power together with its partners Practical Action and Swanbarton have officially been awarded a project by United Nations Industrial Development Organization (UNIDO) to install one of the largest ...

Solar with battery storage presents a timely and strategic upgrade for Nepal's renewable energy sector.

"This transformative project will revolutionize industrial energy use by replacing polluting diesel generators with a large-scale, solar-powered battery storage system," said Gham Power.

Prakriti Urja provides customized battery energy storage system design and integration services to improve power reliability, optimize energy usage, and support renewable energy applications.

From stabilizing Kathmandu's grid to powering remote health posts, lithium battery technology is reshaping Nepal's energy landscape. As storage costs continue to drop (\$97/kWh in 2024 vs. ...

Gham Power, in partnership with Practical Action and Swanbarton, has secured a project from UNIDO to install a 4 MWh energy storage system in Nepal, one of the largest in the country.
