Up to 10 Ultracapacitor modules.

A logistics hub in Poland, for instance, deployed 500kWh modular cabinets to reduce peak demand charges, saving over EUR30,000 annually. These systems integrate seamlessly with existing ...

Equipped with robust couplings, fast switching, accurate battery management and solid housing, each system offers resistant and safe energy storage, fully compliant with the PGS 37-1 directive. Energy ...

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote ...

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC ...

By adopting MOTOMA's Smart Energy Storage System, this hotel and restaurant in the Netherlands now enjoys lower energy costs, enhanced power reliability, and a more sustainable ...

Safety designs such as water and electricity separation, three-level fire protection + explosion venting + exhaust, liquid cooling + dehumidification design, all ensure the safety of the energy storage ...

With an IP54 protection and C4/C5 anti-corrosion grade, it operates reliably in harsh environments. Ideal for solar microgrids, peak shaving, PV self-consumption, and emergency backup power, its modular ...
