By integrating state-of-the-art renewable technologies with energy storage solutions, this landmark project exemplifies the UAE's commitment to scaling innovative clean energy solutions...

In a remarkable advancement for renewable energy, the United Arab Emirates, under the auspices of His Highness Sheikh Mohamed bin Zayed Al Nahyan, President of the UAE, has ...

The UAE has launched what it says is the world's first and largest 24-hour power project, combining solar photovoltaic with battery storage to deliver 1 gigawatt of baseload electricity.

The United Arab Emirates (UAE) has launched the world's first large-scale round-the-clock gigascale energy storage project in Abu Dhabi, combining solar power and battery storage in a ...

A project combining solar generation and battery storage to provide 1GW of "round-the-clock" dispatchable power was unveiled at Abu Dhabi Sustainability Week (ADSW).

By launching the world's largest solar PV and Battery Energy Storage System, Abu Dhabi is setting a new global standard for sustainable energy development and innovation.

The UAE's \$6 billion renewable energy project will serve as a model for sustainable energy development globally and be a driver for the AI and data centre boom in the country. The ...

Developed by Masdar in partnership with Emirates Water and Electricity Company (EWEC), the project aims to deliver 1GW of clean, continuous baseload power at a competitive tariff.
