The Huijue Group Off-Grid Solution comprises three main components: photovoltaic systems, energy storage systems, and off-grid systems, enabling energy self-sufficiency.

This compact 8ft foldable PV container combines 18kW solar generation and 20kWh storage, offering a versatile and transportable solar energy solution. It's ideal for rapid deployment in disaster zones or ...

The Bluesun 20-foot BESS Container is a powerful energy storage solution featuring battery status monitoring, event logging, dynamic balancing, and advanced protection ...

Our OEM Solar Battery Charging Container System provides pure sine wave output inverters for efficient energy storage solutions. Ideal for industrial and commercial use, this portable lithium battery system ...

Customers can customize power capacity, battery storage, inverter types, and auxiliary power sources like diesel generators or wind turbines to tailor the container for specific mission requirements.

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

Discover our 20ft Solar Energy Container, providing 6 kW of sustainable power with quick setup. Ideal for on-demand, eco-friendly energy.

We deliver fully integrated energy storage units housed in durable containers, simplifying logistics and deployment. These solutions are ideal for mining sites, temporary industrial operations, or disaster ...
