Our system is designed to enhance energy density and thermal performance, accelerate installation times, engineered for optimal serviceability, and minimizing capital expenditures (CAPEX).

At GSL Energy, we proudly announce that our state-of-the-art liquid-cooling outdoor lithium-ion battery cabinets have received UL9540, UL1973, and IEC62619 certifications.

It comes with advanced air cooling technology to quickly convert renewable energy sources, such as solar and wind power, into electricity for reliable storage. It is a cost-effective, efficient and reliable ...

Adaptive to harsh environments: Free from impacts of extreme cold and heat; Intelligent dehumidification inside cabinets to eliminate condensing risks.

All-in-one design with liquid cooled battery rack pre-installed and a plug and play interface for auxiliary power supply, communication, and DC connection, which can be installed as a ...

At the same time, our Outdoor liquid-cooled energy storage cabinet is distributed and cluster coordinated through modular design to solve the challenges faced by the energy storage system, ...

The ELECOD Outdoor Cabinet Energy Storage System (Liquid-Cooled) offers an integrated, high-performance energy storage solution designed for small- to medium-scale commercial, industrial, ...

Liquid cooling in the 233KWh energy storage cabinet provides several benefits, including efficient heat dissipation, which helps maintain optimal battery temperature, prolongs battery life, and enhances ...
