-----

If you have forgotten the password for the inverter, you can unlock the inverter with a Personal Unlocking Key (PUK). For each inverter, there is 1 PUK for each user group (User and Installer).

The password for the inverter can be changed for both user groups. Furthermore, the user group Installer can change the password for the user group User as well as its own password.

PV Guru Short Video Series Resetting Inverter Password News No.:ENEWS2000027485 Views:4 Update Date:2025-07-29

The password for logging in to the inverter can be reset physically or by software (only for some models). After resetting the password, the inverter's local login password, WLAN name, and WLAN ...
