-----

Initiated in 2011, RS2E is coordinated since by Prof. Jean-Marie Tarascon (Collège de France, Paris) and Prof. Patrice Simon (Université Paul Sabatier, Toulouse), two world-class specialists of ...

International Conference on Electrochemical Energy Storage Systems ICEESS on June 22-23, 2026 in Paris, France Submit Your Paper

To effectively promote the efficiency and economics of energy storage, centralized shared energy storage (SES) station with multiple energy storage batteries is developed to enable energy ...

Within the Collège de France, the "Solid state chemistry-Energy" group, which reunites 14 people, 4 permanent staff and the rest being PhD's and Post-docs, focuses on the fundamental science of ...

The Chimie du Solide et Energie (CSE, solid-state chemistry and energy) lab is part of the Collège de France, the most prestigious research establishment in France, led by Prof Jean-Marie Tarascon and ...

International Conference on Electrochemical Energy Storage Systems aims to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences ...

Their reactivity is generally studied under electrochemical (energy is supplied electrically) or photochemical (energy is supplied by light) conditions. These experimental studies are coupled with ...

Paris is taking vehicle-to-grid (V2G) tech to new heights. The 15,000 municipal EVs now function as a distributed storage network, adding 75MWh of flexible capacity during emergencies.
