Contact us today and discover how Sun-Age, the leading company in Italy since 2008 in fixing photovoltaic panels without drilling, and therefore without risking compromising the integrity of the ...

S-5! brackets are designed for mounting on exposed-fix (face-attached or thru-fastened) metal roofs. Bolt Balance of System components directly to the appropriate bracket without additional interface ...

Discover 5 innovative solar mounting solutions that eliminate roof penetration risks, preserve warranties, and simplify installation while ensuring long-term structural integrity.

Bracket-free photovoltaic panels - often called "click-and-generate" systems - have emerged as a game-changer in renewable energy. These panels use adhesive films, interlocking designs, or ...

Discover how solar panel mounting without drilling protects your flat roof. Explore non-penetrating solutions for fast and secure PV installation.

The SolarStrap requires neither penetrations nor ballasts, while being both easy to install and attractively priced. A proprietary design employs heat sealing technology to secure the framework to the roof and ...

That's why we offer innovative drilling-free solar mounting solutions tailored for flat roofs. In this article, we'll explore some of the best options available to ensure a seamless and leak-free installation.

Enter photovoltaic brackets without holes, the game-changer that's making contractors breathe easier and roofs stay drier. These innovative mounting systems are flipping the script on solar installation, ...
