To address the challenges of solar panel transportation, PalletOne parent company UFP Packaging has developed the Solster System, a comprehensive packaging solution that ensures the safe transport ...

PVpallet solar panel pallets are designed specifically for solar modules--not adapted from generic pallet designs. Unlike traditional wood pallets and single-use packaging, PVpallet pallets provide consistent ...

This document provides operational instructions for the storage and preparation of photovoltaic modules, aimed at optimizing logistics activities related to their recycling and end-of-life treatment. PALLET ...

This guide serves as a reference for inspecting, transporting, unpacking, handling and storing LONGi PV solar modules to ensure safe practices for you and the modules.

PVpallet Series X (PVP000031) is a stackable, collapsable, adjustable pallet with walls on the 48" side for increased load protection. Made from post-industrial HDPE, these robust pallets are ideal for ...

Use pallets 48" wide or less. Standard truck dimensions are 102" wide, pallets 48" or less in width will allow for two pallets side by side to be loaded & unloaded safely. Stack modules glass side up. This ...

Complete specifications for standard and custom solar panel pallets. View dimensions, load capacities, materials, and technical details for all pallet types.

Solar panels are palletized and carefully packaged using protective materials to avoid damage during both domestic and international transit. If the load is over-dimensional or overweight, ...
