---

Leading U.S. solar company Sunnova Energy filed for Chapter 11 bankruptcy protection on June 8, becoming just the latest industry stalwart to fall by the wayside.

“I would not say that we're expecting a collapse in the residential solar industry,” said Z&#246;e Gaston, principal analyst at Wood Mackenzie, a data analytics firm.

In late 2023 alone, more than 100 residential solar dealers and installers in the U.S. declared bankruptcy, according to Roth Capital Partners--six times the number in the previous three ...

PHILADELPHIA -- The solar power industry is booming and that growth helps the world meet its climate goals by replacing fossil fuels. But an emerging problem in the U.S. solar business ...

Meanwhile, my solar panels have been sitting on my roof for four months, entirely unused, taunting me from above. Over another summer of record-breaking heat, my electricity bills ...

A teetering U.S. residential solar industry may now be on the brink of collapse. Faced by macroeconomic challenges and shifting sands of state and federal policies, an industry once defined ...

The latest draft of the bill is broadly negative for clean energy, but it is particularly damaging to residential solar, cutting federal tax credits far sooner than expected.

With money no longer cheap, subsidies a matter of politics and swirling allegations of fraud, a collapse could be coming soon.
