What is a method statement for uninterruptible power supply?

This Method Statement applies to all installations of Uninterruptible Power Supply at Project electrical works. Manpower and equipment shall be organized to meet the schedule as per the approved construction program.

3. Definition 3.1. Abbreviation UPS - Uninterruptible Power Supply QAQC - Quality Assurance Quality Control MS - Method Statement

What is an uninterruptible power supply?

Uninterruptible power supplies or UPSs are battery chargers consisting of a combination of convertors, switches and energy storage devices (such as batteries), constituting a power system for maintaining continuity of load power in case of input power failure. 10 CFR 430 Appendix Y 2.27.

Can police occupy the same duct systems and manholes with public communication systems?

46.1 Maintenance and Inspection (See Rules 12.2 and 17.2) Police, fire alarm, and traffic control circuits may, with permission of the structure owner, occupy the same duct systems and manholes with public communication systems provided that they comply with all these rules applying to public communication systems.

Can a utility be relieved from a statutory requirement?

Rule 16 The Commission reserves the right to grant relief from any of the provisions of these rules in specific cases when, in the Commission's opinion, public interest would be served by so doing. Compliance with these rules is not intended to relieve a utility from any statutory requirements.
