Customizable Solutions: We offer energy storage cabinets that can be customized in size, capacity, and features to meet specific project requirements, ensuring optimal integration and performance.

This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh battery storage requirement.

We have dedicated after-sales teams in Southeast Asia and Europe. Once the storage batteries arrive at your project site, you can follow our installation guide to complete the setup yourself.

Equipped with a robust 15kW hybrid inverter and 35kWh rack-mounted lithium-ion batteries, the system is seamlessly housed in an IP55-rated cabinet for enhanced protection against water and dust, ...

The Cabinet offers flexible installation, built-in safety systems, intelligent control, and efficient operation. It features robust lithium iron phosphate (LiFePO₄) batteries with scalable capacities, supporting on ...

Safety designs such as water and electricity separation, three-level fire protection + explosion venting + exhaust, liquid cooling + dehumidification design, all ensure the safety of the energy storage ...

Highjoule 215KWh outdoor cabinet series industrial and commercial energy storage system has high capacity and is designed for factories, data centers, microgrids and large-scale renewable energy ...

EK photovoltaic micro-station energy cabinet is an integrated intelligent energy storage device designed for distributed energy scenarios, providing 10-50kWh multiple capacity options (models: EK-Micro-10 ...
