How do I choose a power distribution unit for a server rack?

These power distribution units for server racks provide scalable options for high-density environments, optimizing energy usage while delivering reliability and sustainability to meet the needs of modern servers. Pick a PDU that fits your server's power needs. Make sure it can handle more power in the future to avoid problems.

Which PDU is best for a server rack?

Tip: If you prioritize remote monitoring and outlet-level control, the Vertiv Geist Intelligent Rack PDU is a dependable choice for optimizing your server's power management. The Raritan PX4 Smart PDU sets a new standard in power distribution for server racks.

Where can I find reliable power distribution units (PDUs)?

Discover reliable Power Distribution Units (PDUs) at Server Racks Online, designed to efficiently distribute power to your IT, network, and server equipment.

What is a rack PDU?

Our Rack PDUs (power distribution units) deliver reliable power right where you need it, helping you to create a clutter-free server room by managing the power cables within your rack. We offer a wide range of standalone and rack PDUs, making it easy to find the exact power solution that's best for your application. Our range includes:

Manage and distribute power effectively with our server rack Power Distribution Units (PDUs). Choose from various configurations to suit your network setup, ensuring reliable and efficient power distribution.

These devices ensure clean, stable power reaches every server, switch, and storage device in your racks, while offering the monitoring and control capabilities vital for modern data center management.

Providing reliable and cost effective power distribution, the Basic PDU offers IEC outlet grips, tool-less installation in server racks, color-coded outlet sections and a high operating temperature.

Shop Dell Power Distribution Units for reliable, efficient power management solutions for your data center or office.

How do you get all of those fancy electronic devices that are stored in a rack or cabinet to work? Power them
