Slovenia's HSE signs a EUR100M deal for 80 MW of new solar power plants with integrated battery storage, advancing the nation's renewable energy goals for 2050.

In October 2020, the Slovenian energy solutions company NGEN launched the largest battery storage system (BESS) in Slovenia and the region at the Talum facility in Kidričevo, north-east Slovenia.

As global demand for energy storage batteries grows faster than pumpkin vines in July, Slovenia has quietly become Europe's dark horse in smart grid solutions. Let's unpack why tech enthusiasts and ...

Meta Description: Explore how lithium battery energy storage systems are transforming Maribor, Slovenia's renewable energy landscape. Discover applications, case studies, and future trends for ...

Developer NGEN is deploying the largest battery energy storage systems (BESS) in Slovenia, Austria and Croatia, and wants to take its model beyond CEE too, CEO and co-founder ...

GSL ENERGY's 480kWh BESS project in Slovenia showcases how renewable energy solutions can deliver tangible value to businesses. By prioritizing efficiency, reliability, and scalability, ...

A 10MW/50MWh battery energy storage system (BESS) spread across two substations in Slovenia has started a trial and testing period. The BESS projects are located at the Okroglo and Pektre ...

This isn't a fairy tale - it's 2025's energy reality. Slovenia's solar energy storage sector is booming, with lithium battery installations growing 27% year-over-year since 2022 [1]. But why should coffee-loving ...
