---

The industry code for solar energy primarily falls under the North American Industry Classification System (NAICS) as 221118, and the International Standard Industrial Classification ...

Important products of this industry are semiconductor diodes and stacks, including rectifiers, integrated microcircuits (semiconductor networks), transistors, solar cells, and light sensing and emitting semi ...

What is NAICS code 221114 - solar electric power generation? NAICS Code 221114 - Solar Electric Power Generation is a final level code of the "Utilities" Sector.

NAICS Code 221114 Description This U.S. industry comprises establishments primarily engaged in operating solar electric power generation facilities. These facilities use energy from the sun to ...

NAICS 221114 refers to the industry primarily engaged in operating solar electric power generation facilities. These facilities generate electricity by converting solar energy into electrical power, which is ...

NAICS 221114 Solar Electric Power Generation covers establishments primarily engaged in operating solar electric power generation facilities and supplying the electricity produced to transmission or ...

Establishments primarily engaged in installing solar panels or solar heating equipment are classified in Industry Group 2382, Building Equipment Contractors. Get detailed descriptions of NAICS codes to ...

The safe and reliable installation of photovoltaic (PV) solar energy systems and their integration with the nation's electric grid requires timely development of the foundational codes and standards governing ...
