Solar Wireless Pelican Crossing Traffic Light System is a special pedestrian-actuated warning system for uncontrolled marked crosswalks. It uses solar energy to generate its power and does not need ...

We manufacture solar powered W11-2 pedestrian crossing signs with integrated LED lights, providing advanced warning with our wireless crossing alert to all motorists approaching the crossing area or ...

Solar-powered crosswalk lighting that installs in hours--no grid, no digging. X-GUARD protects crossings where visibility counts.

This wireless LED solar traffic warning system uses only solar powered electricity. With push button activation, this system turns on both sides of the road with motion. It is built with aluminum alloy ...

The RRFB Solar Crosswalk Lighting System is used for pedestrian safety when crossing residential and commercial roads and streets. The RRFB system comes with three fixture options along with the ...

When pedestrians approach, the lighting automatically illuminates the zebra crossing, and the warning lights alert drivers to slow down, especially in low-visibility conditions. Plus, the entire system is ...

The Solar Traffic Light System is designed to improve pedestrian safety by controlling vehicle traffic approaching the pedestrian crossing and advising pedestrian when it is safe or unsafe to cross.

This grid-free autonomy makes solar an ideal choice for midblock crosswalks that aren't conveniently located near power connections. It also streamlines installation, reducing costs and ...
