For over two decades, Americans have been sold a dream wrapped in sunlight and wind gusts -- a promise that renewable energy, particularly solar and wind, would be our ticket to energy ...

The article, "Trump Speaks Truth to Wind Power," underscores critical points about the inefficiencies, costs, and unintended consequences of federal subsidies for renewable ...

The extra layer of scrutiny for wind and solar contrasts with actions by the Trump administration to make it easier and cheaper for companies to produce oil, coal, gas and nuclear power.

Trump blasted wind and solar as a "scam" causing record energy costs -- but data show renewables often slow price hikes and cut consumer bills.

The Federal Trade Commission is getting tired of dealing with all the solar panel scam complaints and warns consumers what to watch out for.

If you've been approached by someone offering to install solar panels at no cost or promising you'll never have to pay another electricity bill, be careful--it's likely a scam."

There, Republican Sen. Chuck Grassley actually backs wind power and has moved to protect it. Democrats have also criticized the Trump administration's moves against renewable energy.

The scams vary, but here's the gist: someone claiming to be with the government or your utility company promises big savings on your utility bills from solar energy or other home improvements designed to ...
