A reliable beacon of progress for the international PV industry, Professor Martin Green's Solar Cell Efficiency Tables Version 67 are a snapshot of the latest highest confirmed efficiencies across cell, ...

NLR maintains a chart of the highest confirmed conversion efficiencies for research cells for a range of photovoltaic technologies. This is an interactive version of that chart.

The efficiency is 17% higher than the highest efficiency single-junction perovskite cell of similar size in Table 1 (smaller area cells in Table 2 have their efficiency inflated by avoiding series resistance and ...

NREL has updated its Best Research-Cell Efficiency Chart. The tool highlights the highest confirmed conversion efficiencies of research cells for a ...

Progress in Photovoltaics (PIP) regularly publishes solar cell and module efficiency tables summarizing the highest ...

confirmed efficiencies for solar cells and modules are presented. Guidelines for inclusion of results into these tables are outlined, and new entries since July 2022 are reviewed. Graphs showing progress ...

Abstract Consolidated tables showing an extensive listing of the highest independently confirmed efficiencies for solar cells and modules are presented. Guidelines for inclusion of results into these ...

NLR maintains a chart of the highest confirmed conversion efficiencies for research cells for a range of photovoltaic technologies, plotted from 1976 to the present.
