Solar-Gen is a new range of customisable solar pv generators with battery storage, housed in modified shipping containers. The solar pv arrays have peak outputs from 800 Wp to over 10,000 Wp and ...

We have deployed Solar Power Container units at three of our mines and the results have been outstanding. The ease of transportation and short installation time saved us weeks of downtime.

SolarBox Mobile Solar Container brings green energy wherever you need it. The integrated solar system delivers 400-670 kWh of energy daily. Thanks to foldable solar arrays, the container is ...

Each solar-powered shipping container generator is transportable, securable, and can be fully customized to your specific needs, including hybrid and microgrid compatibility.

Look for solar container that offer customizable settings and reliable control mechanisms to ensure optimal preservation of your goods. Energy efficiency is also an important consideration when ...

Based on an average power consumption of a 4-person household of 4000 kWh per year and a location in Southern Germany, the solar container can supply approx. 32 households with climate-friendly ...

It is up to 22% efficiency, 1/3 lighter than solar silicon with the same power. The total power increased by 1/3 compared to other portable solar panel kits with the same size.

This solar power system comes with two 6 V 240 Ah deep cycle batteries that don't require any maintenance. They're built to last and will give you all the juice you need.
