Solarcycle plans to combine Ecosoda, a low-carbon natural soda ash from Genesis Alkali, with recycled materials from retired solar panels to produce the new solar glass.

Soda ash is a raw material used in solar glass production. According to Genesis Alkali, naturally produced soda ash is approximately 37% less greenhouse gas intensive than synthetically ...

Every square meter of solar glass embodies a significant quantity of soda ash, meaning that as the world races to install new solar capacity, soda ash's importance grows proportionally.

Discover why soda ash dense is the indispensable choice for PV glass production. Explore its applications, benefits in sustainable manufacturing.

China-based Inner Mongolia Berun Group started production at a new natural soda ash factory in Inner Mongolia, China, in late June.

Solarcycle will buy naturally produced soda ash from Genesis Alkali, a key component in glass production. Genesis produces soda ash--also known as sodium carbonate--under the brand ...

SOLARCYCLE announced a multi-year agreement with Genesis Alkali to purchase Ecosoda, a low-carbon natural soda ash produced near Green River, Wyoming, to help facilitate the ...

Solar glass, used in solar panels, is the single fastest growing demand sector. In 2023, world soda ash demand grew by 2.7%, 1.8 million mt, this increase was driven by China.
