Several interlinked factors are influencing the long-term development of the Vietnam Solar Tempered Glass Market. One of the key influencers is the evolving regulatory landscape, which...

Ho Chi Minh (08 May 2024) - Trina Solar, a global leader in smart PV and energy storage solutions, has been steadily ramping up production at its manufacturing facility in northern Vietnam, demonstrating ...

The previously dormant float furnace at NSG Vietnam Glass Industries (VGI) located near Ho Chi Minh City was restarted earlier this month. It will produce transparent conductive oxide (TCO) ...

The Group's global operations include wholly owned subsidiary NSG Vietnam Glass Industries (VGI), whose factory is devoted to the manufacture of glass for solar panels.

Ho Chi Minh City has emerged as a vital hub for exporting high-quality photovoltaic modules, catering to global renewable energy demands. This article explores Vietnam's growing solar industry, key export ...

The float furnace to produce transparent conductive oxide coated glass for solar panels, located at NSG Group's facility in Ho Chi Minh City, Vietnam, started operation.

This article explores how solar-integrated glass solutions are reshaping urban architecture, reducing carbon footprints, and creating new opportunities for businesses in Vietnam's renewable energy sector.

Our innovative manufacturing process transforms a sheet of glass into a complete solar panel in less than 3.5 hours, and utilizes 98 percent fewer semiconductor materials than conventional crystalline ...
