---

Built in secluded natural landscapes or quiet urban areas filled with vegetation, these modern glass houses make nature a central part of their living spaces.

Composed of cubic modules, a minimalist Moroccan villa encourages relaxation while referencing local building traditions.

These glass villas, hotels, and homes from around the world offer a unique blend of luxury and nature.

Onyx Solar has successfully completed its first project in the Principality of Monaco with the installation of a photovoltaic skylight made of crystalline silicon photovoltaic glass at the iconic Villa Florestine.

From Finland to Mexico to New Zealand and India, these design-forward glass villas, lodges, and resorts come with breathtaking views. A lone house stands in glassy contrast to the ...

It's a beauty with a purpose! Get a glimpse of a beautiful villa covered in energy-producing solar roof tiles.

Fronted with floor-to-ceiling glass, Villa H opens up to the garden and maintains a relatively low environment footprint with its use of solar energy, green roof, and air-driven heat pump.

Homes using passive solar orient their home in a specific way to maximize the sun's warmth in colder months and divert it in warmer months. For example, wood flooring can capture ...
