What is the VAT rate for solar panels in Portugal?

Until 30 June 2025, installations benefit from a reduced VAT rate of 6% on mainland Portugal (5% in Madeira, 4% in the Azores). After that, the rate is expected to return to the standard 23%. Thinking about installing solar panels in your Portuguese home?

Should you install solar power in Portugal?

You may want to relocate as an expat, renovate your home as an investor, or be a pensioner looking for efficiency; solar installation in Portugal is an inexpensive option. Aside from cutting your electricity bills, solar power can make you an independent individual and the proud possessor of an asset-rich property.

Why do solar panels shut off in Portugal?

The majority of solar panel systems in Portugal automatically shut off in the event of a power outage for safety. This happens so electricity is not fed back into the grid, potentially harming technicians working on the lines. However, there are solutions such as SmartGuard by Huawei, to keep your system running during the power outage.

Should you invest in solar energy in Portugal in 2025?

Pearls of Portugal can help you from start to finish. Portugal's favourable solar profile combined with solid policy and finance incentives make it a sound investment in 2025 in the area of solar energy.
