DUN-SOLAR(TM) PV back sheets are available in a variety of constructions for both traditional rigid PV modules, like the one shown above, as well as thin film PV modules and solar power concentrators.

SolAirtech®; SA2200 is a low cost, high performance, self cleaning frontsheet film to replace glass in thin film, flexible PV modules. Our film allows your modules to offer high efficiency, lightweight capabilities ...

Coveme develops and manufactures multilayer and monolayer polymer laminates for the protection of solar panels. These laminates, marketed under the company's dyMat®; brand, provide electrical ...

In this guide, we'll walk you through everything you need to know about backsheets - what they are, why they matter, and how to pick the right one for where you live. Whether you're ...

Tedlar®; PVF film-based backsheet designs have been in the field for more than 30 years in different climates, including deserts, tropical locations, seashores, and mountainous terrains.

Explore premium solar backsheet and EVA backsheet solutions for your PV panels. Our durable backsheet film ensures superior protection, extending the lifespan and performance of your solar ...

Our PV backsheet material for solar manufacturers is a cost-effective high performance PV backsheet that protects all components of the solar module.

Whether it's for use with standard, fast or ultra-fast cure encapsulants and laminating processes, Flexcon MultiGuard®; multi-layer backsheet products offer long-life UV and moisture protection and ...
