Extend the range and coverage area of a telecommunications network to hard-to-reach and remote locations with our solar power kits. Our kits can be scaled to power any equipment necessary, and ...

They transform solar-sourced DC into AC and store unused energy in high-performance battery packs, providing clean, renewable backup energy to mission-critical telecom equipment.

With this solar-powered solution, telecom operators can reduce their reliance on the grid and ensure uninterrupted communication services even in remote areas. This telecom cabinet is equipped with a ...

Photovoltaic energy storage systems ensure reliable power for telecom cabinets, reduce costs, and support sustainability with scalable solar solutions.

We design and manufacture high-quality custom enclosures, while providing professional assembly, system integration, and tailored support services for telecom, solar, and industrial equipment across ...

Huijue HJ-FGY series wind-solar complementary outdoor integrated energy-saving cabinet is an outdoor integrated cabinet made of high-quality metal sheet materials, which can integrate solar photovoltaic ...

Mini-Telecom Cabinets The Apollo Solar mini-cabinets provide all the electronics needed for smaller systems. Shown on the right: a mini-cabinet for a 500 watt system.

Seamlessly integrates solar, wind, generator and grid power supply for dealing with any place's variable energy requirements. Built-in AC and DC outputs (220 VAC, 48 VDC, -12 VDC) enable easy ...
