Constructed just outside of Shanghai adjacent to a wind turbine farm, the 25 MW EVx system will be one of the largest long duration energy storage systems in the world.

Energy Vault's groundbreaking EVx(TM) is the world's first commercial-scale Gravity Energy Storage System (GESS), providing industry leading round-trip efficiency and a 35-year operating life.

Slated to be fully grid-interconnected in the fourth quarter of 2023, the gravity tower will mark the world's first non-pumped hydro gravity-based storage facility. The project is located...

The project is designed to have an energy storage capacity of 100 megawatt-hours, which can power 3,400 homes for a day, and the system is expected to be completed in June.
