Wattlab has installed a PV system capable of delivering up to 35 kW to a cargo ship's high-voltage propulsion system, allowing it to temporarily replace one of four diesel generators under...

Solar is emerging as a particularly attractive option for integration into shipboard power systems due to its abundance, reliability and zero-emission profile.

Wattlab, a Dutch solar company, said that this is the first PV system in the world to feed solar power directly into a freighter's electric propulsion. The modules were installed at the De ...

Discover the transformative potential of solar panels on shipping containers. Explore custom kits, modular configurations, and innovative applications.

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

OkSolar Transforms Shipping Containers into a Solar-Powered Modular units of Power AnyWhere Any Time&#174;. Our Kits are custom made based on 3D Architect drawings, GPS data positioning, Grid ...

The Maritime Technology Cooperation Centre (MTCC) Pacific supported the trial of marine solar power systems on two ships to power electricity needs, especially when in port. This resulted in overall ...

Ships can get the benefits from solar energy since most of their upper decks are always exposed to the Sun, especially in tropical regions. The article presents an example of practical application of energy ...
