All of this is supported by a UK technical team. The systems also works with Agile Octopus, the 100% green electricity tariff with Plunge Pricing - a world first that lets you take advantage of negative price ...

We offer a premium installation service. Please fill out the installation quote form today to receive a personalised quote tailored to your location and installation requirements.

GSL ENERGY provides 5kWh-500kWh all-in-one energy storage systems in the UK for commercial & industrial facilities. Reduce costs, ensure backup power, and optimize solar energy.

Our 500 kVA Battery energy storage unit helps you save on both emissions and fuel costs when coupled with a generator

The equipment can automatically charge the storage batteries using valley-time urban electricity with a low cost and can be set to the long-time status of interruptible power supply.

Pair an inverter with a storage battery and save money simply by taking advantage of smart tariffs. Save money using only the grid, charge your battery overnight when costs are low, then switch to battery ...

By leveraging these incentives, UK residents can reduce the upfront costs of energy storage systems, contribute to a more sustainable energy grid, and achieve long-term savings on their energy bills.

Easily upgradable from 500kW to 1MW of energy storage, storing up to 3.8MWh of energy, enough to power an average 3,600 homes for one hour.
