AMN and Starlink signed a commercial agreement to use the satellites to connect the operator's mobile network base stations with broadband services in 2023, and in April this year the ...

Presently, Airtel Nigeria has inaugurated the 5G in Lagos, Rivers, Ogun and the Federal Capital Territory, Abuja, with over 200 5G Sites, across these states.

Consistent power supply is critical for operating 5G infrastructure, but Nigeria's irregular electrical supply presents a hurdle. Many base stations rely on generators and backup batteries, which raises network ...

MTN has now revealed the full list of locations in Nigeria where it will deploy 5G network alongside a router for users to get access to 5G with their smartphones or computers.

Airtel Nigeria said it has built no fewer than 200 new sites in order to provide services running on the fifth generation (5G) technology. It said it is already offering services in Lagos,...

Compare the network coverage of mobile operators and check their performance at home !

Starting its rural base station deployments in Nigeria back in 2018, AMN now operates 1600 base stations across the country. Yebu, around 80 km from Abuja, was the initial rural ...

Another way to estimate the number of active 5G connections in Nigeria is to look at the number of 5G base stations that have been deployed in the country.
