Where are Yingli solar panels manufactured?

Yingli Solar, headquartered in China, manufactures its solar panels using advanced technology. The company sells its solar panels in New Zealand via distributors and has won many awards for its panels. Yingli Solar produces and supplies the following solar modules:

How many solar panels did Yingli produce in 2018?

In 2018 they shipped 1.7 gigawatts of panels, which was little more than half their 2014 production. Company History The company's full name is Yingli Green Energy Holding Company Limited. It was founded in 1998 and commenced production of solar panels in 2003. It rapidly expanded and become the world's largest manufacturer in 2012 and 2013.

What types of solar panels does Yingli Solar offer?

Yingli Solar offers a range of high-efficiency photovoltaic modules. Its products have evolved over the years -- while it started with full, polycrystalline modules, the company now offers only monocrystalline, half-cell solar panels. Here's an overview of the panels offered:

How much do Yingli solar panels cost?

Yingli's solar panels will cost you anywhere between \$2.50 and \$3.10 per watt. For reference, an average 7kW solar system can cost you about \$21,000 before the federal tax credit. You can expect Yingli Solar panels to be slightly below the average because they are known as a less expensive brand.

In 2023, its photovoltaic module bid volume and shipment volume ranked in the top ten of the industry. Headquartered in Baoding, Hebei, the company has an industrial layout across multiple bases in ...

Headquartered in Baoding, Hebei Province, Yingli Solar has many bases in Baoding, Tianjin, Hengshui and other cities. The company boasts over 2 decades of industry experience and a worldwide ...
