SuperDyma steel, zinc aluminum magnesium coated steel, has super corrosion resistance, self-healing performance, perfect for versatile uses.

ZAM coated steel, Zinc-aluminum-magnesium has excellent corrosion resistance, chip protection and self-healing capabilities.

Our Photovoltaic solar mounting system bracket Profile C is made of high-quality Zinc Al Mg Steel coil which is light and corrosion-resistant. This advanced material is designed to withstand extreme ...

As a professional ZAM steel sheet coils supplier, we have supplied zinc-aluminum-magnesium coated steel materials for solar conduit projects and roof panel processing projects in Kazakhstan, ...

Z-A-M is a highly corrosion-resistant hot-dip Zinc-Aluminum-Magnesium alloy coated steel sheet. Due to the effects of magnesium and aluminum, Z-A-M has excellent corrosion resistance, scratch ...

ZAM ® coated steel is a highly durable steel product coated with a blend of zinc, aluminum, and magnesium. This unique coating enhances corrosion resistance, surpassing traditional galvanized ...

The Zn-AL-Mg corrugated roof sheet is made by coating a steel sheet with a layer of zinc, which provides excellent corrosion resistance. The aluminum and magnesium are then added to the zinc ...

Upgrade your roofing with Aluzinc Corrugated Metal Roofing Steel Sheet - a durable, lightweight, and corrosion-resistant solution that combines the strength of steel with the protection of aluminum and zinc.
